## About the Organic Plant Sale

This year marks the sixth year for Crown Point's spring Organic Plant Sale. Once again, we are delighted to supply high-quality, certified organic plants for your home garden. All of our plants are grown at Crown Point without the use of synthetic fertilizers or toxic pesticides. Neither are hormones used to increase or decrease growth rates of our plants. We let good soil, good timing, and spring sunshine do the work.

In the interest of promoting biodiversity and satisfying customers' requests, this year's expanded list of over 200 varieties offers gardeners an even wider selection of vegetables and flowers over last year. Tomatoes and peppers remain an emphasis, but a fine selection of eggplant, summer squash, melons, lettuce, cabbages, native flowers and more can be expected.

Unique and delicious heirlooms are a feature of this sale. Many of Slow Food USA's Ark of Taste vegetables will be available. The Ark of Taste vegetables, chosen for their culinary and cultural values, seek to protect our inherited agricultural diversity. Some hybrids will be available, although these will be limited and carefully selected.

## About Crown Point Ecology Center

Crown Point Ecology Center is green space that matters – a biologically diverse living laboratory that serves to demonstrate practical applications of ecology. On the rolling hills of Bath, Ohio, Crown Point expresses its mission through sustainable agriculture and environmental programs that integrate four key principles – community, sustainability, justice and spirituality.

Crown Point welcomes all who share the vision of a sustainable future for Mother Earth and her inhabitants. Our center promotes a healthy environment indoors and out.

Our 130-acre property includes open fields and meadows, woodlands, the Jubilee Garden, the Magadalyne E. Hausfeld Children's Garden, a meadow labyrinth, a wetland pond ecosystem, woodlands and a 12-acre Certified Organic farm. The beautiful country vista provides unique sacred spaces to walk, to meditate, and to be inspired by creation.

For more information about Crown Point's upcoming events and programming, please visit our website at [www.crownpt.org](http://www.crownpt.org).
