## The Summer Farm & Science Camp at Crown Point

announces

### Lessons on the Land 2010

Join the Crown Point Science  
Investigators and Explore

### People on the Farm

Delve deep into the history of Crown Point. Investigate how people have lived in harmony with the land through the ages. Follow your food from the field to your plate! Celebrate the life of a farmer as you work and play at Crown Point Ecology Center.

Come and explore the farm from field to forest, barns, gardens and pond. Along the way, you'll harvest and prepare food for daily snacks, play team-building games and even learn how to set-up and run a children's farm market!

Through investigation and unlimited discovery you'll learn how plants, animals and people grow and change in a farm community.

## An enriching and engaging day camp for explorers ages 6-11 years old.

The fourth season of the Summer Farm and Science Camp offers an opportunity for children to investigate the natural cycles of plants, animals and people on a farm through interdisciplinary, problem-solving activities.

Crown Point's 130-acre center is a living classroom that awakens your child's sense of wonder through activities and games rooted in ecology, art, math, music, and language arts.

### Dates for Lessons on the Land 2010:

- Session 1 June 14 - 18**
- Session 2 June 21 - 25**
